## Why this matters for citizens

Issues like this are common — every year lakhs of Indian citizens face the same hurdle. The core legal frameworks are the **Right to Information Act, 2005**, the **Information Technology Act, 2000** (for online matters), and the **Consumer Protection Act, 2019**. The enforcement bodies vary by issue but most start with a complaint to the relevant department PIO + a parallel CPGRAMS filing.

## Citizen action steps

1. **Step 1** — file an RTI under §6 of the RTI Act 2005 to the relevant department PIO. Use **AI RTI Drafter** for free.
2. **Step 2** — parallel **CPGRAMS** complaint at [pgportal.gov.in](http://pgportal.gov.in) for service-delivery push.
3. **Step 3** — if PIO refuses, **§19(1) First Appeal** in 30 days. Use **First Appeal Builder**.
4. **Step 4** — for fraud / criminal matters, **FIR at local police station + cybercrime portal** ([cybercrime.gov.in](http://cybercrime.gov.in)) + **NCRP helpline 1930**.
5. **Step 5** — for consumer issues, **Consumer Court** under Consumer Protection Act 2019 (e-filing at [edaakhil.nic.in](http://edaakhil.nic.in)).
